**Give your clients the option of movement in your landscape designs.**

For years you have used water as a key landscape design element. This year, go the next step. Offer your client motion in a classic or modern design water wheel.

Waterwheel Manufacturing has fabricated metal waterwheels globally for over 18 years. We have perfected the construction of landscape waterwheels by incorporating the structural beauty with modern fabrication.

Waterwheel Manufacturing designs and builds the finest quality landscape waterwheels - in all sizes and for many venues: Estate Entrances, Residential, Parks to Mill Restoration.

All Wheels are custom build to match the design flow of your creation. We have full CAD capabilities to work with your office during your design process.

Give us a Call - We are always happy to talk about your project
